Removals and Storage

Commercial Solutions

Commercial Solutions

We believe the basic principles of a successful relocation are to safely deliver the project, on time and within budget. It really is that simple. We will focus on our business to allow you to focus on yours.

Why choose Clockwork

Our teams of experienced move managers will ensure that your relocation is delivered on time, within budget, minimising down time and disruption to your business.

With over twenty five years experience in business relocation, we understand the importance of the logistics behind the move. No matter the size or complexity of the relocation our teams are on hand to keep your business moving.

Business Continuity

We appreciate the tight schedules and time constraints businesses operate to and we understand that you need a low-risk, structured and professional approach to your relocation. Undertaking a large scale commercial relocation requires extensive planning and logistics as well as managing relationships with specialist contractors and suppliers. This can put a real strain on your existing workforce and costs can quickly add up. At Clockwork we believe thorough planning is the key to a successful relocation.

Project Management

We provide each of our clients with a dedicated Project Manager who will understand the full scope of the move. They will work with you throughout the process to help manage costs, shorten the supply chain and minimise any downtime to your business. Our teams will provide detailed, cost effective relocation plans overseeing your entire move, from planning to execution, allowing you to remain focused on your business.

Our Experience

Clockwork Removals is a nationwide removals company with over 25 years experience but our entire team combined, contributes to 100s of years of expertise. From our Branch Managers and Commercial Consultants to our removals foremen and operatives, our teams are ready to provide each and every client with a highly efficient service.

Our specialist Commercial Consultants always conduct thorough surveys for each and every business move to help put together a full resource and activity schedule and an accurate quotation. Whether you need a sequentially packed library move or full scale college relocation our experienced teams will be with you every step of the way.

We also provide businesses across the UK with overseas relocation services and as members of the BAR Overseas Group and FIDI we have established a network of service partners and agents. We ensure every detail of your relocation is taken care of including; export packing, shipping regulations, international storage and insurance cover.

“No matter the size or complexity of the relocation our teams are on hand to keep your business moving and your downtime to a minimum.”

Our 'Green' Approach

As a company we have specific goals and policies to ensure that we minimize our environmental impact wherever possible. Our North London branch holds the ISO14001 Environmental Management Systems certification and all our projects and procedures comply with this.

Our Green approach translates into every aspect of our day-to-day operations and within our CSR plan we continually set ourselves demanding environmental targets. Most importantly this includes a fleet replacement plan; making sure our fleet is fully compliant with the UK's Ultra Low Emission Zones (ULEZ).

To further minimise our environmental impact we work alongside Carbon Footprint, taking part in their UK tree planting initiative in which we plant a tree for every container we ship throughout the world.

We are continually adapting and updating our CSR plan to ensure we meet and exceed its targets, here are just some of the other ways in which we strive to do this:

- Using recycled packing materials and recycling them after use.
- We use recyclable paper for all our marketing materials.
- Partnering with eco-friendly organisations for recycling and disposal services.
- Continual driver training; to ensure responsible driving and fuel efficiency.

Health & Safety

At Clockwork we are proud of our track record in risk management, health and safety and environmental planning. We are committed to building a safe working environment to protect the interests of our employees, clients and the wider community.

Our North London branch holds the ISO 45001, the international standard in occupational health and safety. Clockwork's health and safety management systems and procedures meet exceptionally high standards, consistently identifying and controlling health and safety risks, reducing accidents and ensuring full legislative compliance. Our North London branch also holds the ISO 9001 in quality management, ensuring our clients get a consistent and high standard of service.

Move Management

A great business is defined by its people and we believe we have the very best people working on your move.

| Project Manager

We provide each of our clients with a dedicated Project Manager who will understand the full scope of your move. Primarily liaising between you and your move team Project Managers are highly trained with years of experience in the removals industry. They will oversee the entire relocation; designing schedules, reducing costs, shortening the supply chain and minimising downtime to your business.

| Move Manager

Your Move Manager will be on site with you to ensure that plans are followed and to manage and execute any changes on move day. They will be on hand to organise all the additional services you require, from initial crate deliveries through to tools required for our fitters. They ensure the team is equipped and prepared for your move.

| Removals Foreman

Your Foreman is responsible for coordinating your removals team on move day. They will ensure that all instructions are carried out efficiently and quietly, minimising disruption to your workplace whilst ensuring effective use of all our resources. If you have any questions or queries about your move on the day your Foreman will always be on hand to help.

| Removals Operatives

Our experienced Removals Operatives are highly trained to BAR standards and have the experience, equipment and materials to pack, wrap and transport your workspace. Our teams, throughout the UK, have been trained in the specific handling skills required for the most technical of moves from laboratory and technology relocation to museum and gallery moves.

| Specialist Staff

We have teams of highly trained specialist staff including fitters and IT technicians. Our fitters will safely dismantle and reassemble your furniture, shelving and storage systems, and are trained and experienced in handling a variety of furniture and office equipment. Our IT experts ensure that every aspect of your technology relocation is covered, including cabling, installation and full network management.

“Liaising between you and your move team, your Project Manager will oversee the entire relocation; managing costs, shortening the supply chain and minimising downtime to your business.”

Commercial Solutions

Our teams have the experience and expertise needed for working on relocations in challenging and time sensitive working environments.

| Educational Institutions

School, college and university projects require flexibility and a full understanding of the complexity of relocations within these institutions. Our operatives have extensive experience of the unique requirements these environments bring, working around the ongoing classes and lectures without interruption. All Clockwork staff have the relevant security clearances for these moves.

| Hospitals and Laboratories

Our teams, throughout the UK, have been trained in the specific handling skills required for manoeuvring fragile, oversized and extremely heavy hospital and laboratory equipment. We have the specialist materials, equipment and vehicles needed to safely carry out these highly technical moves. Whether you need to regularly move bulky and oversized apparatus internally or need to fully relocate to a new facility, our Project Managers have the logistical knowledge and know how to execute these highly technical relocations.

| Libraries and Museums

Clockwork Removals have a specialist team of library consultants who are trained in Dewey Decimal, binary and congress classification systems. We understand the procedure and complexity of these removals and fully familiarise ourselves with the unique structure of each collection.

Our teams have extensive experience in the handling of sensitive collections and exhibitions, understanding that museum moves require careful and meticulous preparation. In order to keep irreplaceable artefacts and archives well preserved throughout relocation, we offer specialist packing and packaging that will safeguard them against further decay and unwanted damage.

“Whether you need a full laboratory relocation, a sequentially packed library move or an internal office removal we understand the importance of the planning and logistics involved in every move.”

| Hospitality and Retail

Whether you are relocating, renovating or are undergoing a closure our experienced Project Managers can provide the support to plan and execute your relocation. Our teams of highly trained operatives will help wrap pack and move your stock, furnishings and equipment in a quick and methodical way to ensure minimum downtime to your business. Our teams can move oversized items within your store as well as the clearance and safe disposal of equipment and furniture.

| Internal Moves

Flexible work spaces are becoming more commonplace and our teams are on hand to allow you to adjust your working environment easily. Whether you are moving to another floor within your building or require an office restack and reconfiguration we can assist with minimum disruption to your staff and services.

Storage Solutions

We provide safe and secure storage to clients who are looking for easy and efficient storage solutions.

At Clockwork we offer all types of commercial storage to both public and private sector clients. Your items will be wrapped, packed and sealed with an inventory list outlining every item in storage. Whether you need to store with us for weeks, months or years, just give us a call and we will get your items safely delivered back to your workspace.

There are infinite reasons why customers wish to use our commercial storage solutions including:

- Office refurbishment
- Excess furniture
- Records and archive management
- Surplus stock
- Exhibition materials
- Tools and trade storage

Long and Short Term

You may need to store some office furniture for a few weeks or a warehouse of excess stock for a few years, we have a range of short and long-term storage options available. We have large scale containerised storage spaces and in certain areas offer processing, stock control and shipment of goods by a third party.

Containerised Storage

Our modern and purpose built facilities offer the very best in containerised storage. Containers are constructed to the highest standards specifically for this purpose, security sealed by our staff and safely stored in our secure warehouse facilities.

Archive Storage

We provide full archive documentation storage and retrieval services handled by our highly trained and efficient records management team.

“ There are many different reasons why clients choose to store with us including: surplus stock, records and archive management and excess and oversized furniture. ”

Specialist Services

Our range of specialist services are on hand to support relocations which require a little more skill and expertise.

Technology Relocation

We offer complete technological project management services with the expertise to conduct large IT equipment moves. Regardless of whether you're moving an internal network to another floor or relocating a complex multi-site network, we have the appropriate IT solutions for your move.

Our full range of IT services include:

- Decommissioning and recommissioning
- Full cabling services
- Network configuration
- Floor box moves
- Technical support
- IT cleaning services

Recycling / Disposal

Whether you are moving offices, downsizing or are re-evaluating your property strategy Clockwork's highly experienced teams can carry out sustainable office clearances. Our services also include the environmental disposal of furniture and waste electrical and electronic equipment recycling (WEEE). Our environmental commitment means we have long-standing partnership agreements with eco friendly organisations and charities to help with furniture recycling and upcycling.

Crate Hire

We offer a full range of crates for every type of commercial move. From standard lidded crates for paperwork and files, computer crates for specialist transportation of IT equipment to library trolleys for moving entire bookshelves.

“ Whether you're moving an internal network to another floor or relocating a complex multi-site network, we have the appropriate IT solutions for your move. ”
